3½ years ago I had a vision to build a Sensory Garden. A learning space that would provide sensory stimulation and delight to all of our students. A concept plan was developed by Carolyn Wemyss. The Plan encompassed a space that would be interactive and provide a therapeutic retreat that would take students on a journey of colour, sound, touch, taste, play and above all imagination.

On a glorious sunny day on the 15th December 2014, we shared an Opening Ceremony to formally open the Garden and acknowledge and thank everyone who contributed in bringing the project to fruition. The school now has a Sensory Garden which is a highly beneficial learning space that assists students to regulate their sensory challenges.

In particular, I would like to mention Mates on a Mission, the Variety Club, Teachers Mutual Bank, Como-Jannali Rotary Club, Bunnings Warehouse Kirrawee, Gymea Tradies, CWA StGeorge Sutherland Branch, Dr George Williams, Joe from Turn Me On, Sam Shennan a mural artist, the Youssef and Homsy Families and our wonderful P&C Association.

Regards

Fiona Young
